What is a Halo Wedding Ring?

A *halo wedding ring* features a central gemstone, often a diamond, surrounded by a "halo" of smaller accent stones. The History and Evolution of Halo Wedding Rings

The concept of the halo setting dates back to the Georgian era (1714-1837), where it was initially used in engagement rings. Over the centuries, the design has evolved, incorporating modern techniques and styles. Today, halo wedding rings are celebrated for their timeless elegance and ability to showcase the beauty of the central gemstone.
