

When it comes to choosing the perfect engagement ring, **side stone engagement rings** have become increasingly popular among brides-to-be. These rings, adorned with smaller diamonds or gemstones flanking the center stone, offer a unique blend of elegance and brilliance. But what makes these rings so special? Let's delve deeper into the world of side stone engagement rings.

What Are Side Stone Engagement Rings?

Side stone engagement rings feature a central gemstone, typically a diamond, complemented by smaller stones on either side. These side stones enhance the overall sparkle and add a touch of sophistication. The design can vary from simple and understated to intricate and elaborate, catering to different tastes and preferences.

Why Choose Side Stone Engagement Rings?

There are several reasons why side stone engagement rings are a popular choice:

- **Enhanced Brilliance:** The additional stones amplify the ring's sparkle, making it more eye-catching.
- **Customization:** Brides can choose from various gemstones and settings to create a unique piece.
- **Symbolism:** The side stones can represent the couple's journey together, with the center stone symbolizing their union.

Popular Designs and Settings

Side stone engagement rings come in a variety of designs and settings. Some of the trending styles include:

1. **Three-Stone Rings:** Featuring a larger center stone flanked by two smaller stones, this design symbolizes the past, present, and future of the couple's relationship.
2. **Halo Settings:** A circle of smaller stones surrounds the center stone, enhancing its size and brilliance.
3. **Pave Settings:** Tiny diamonds are set closely together along the band, creating a continuous sparkle.

Choosing the Right Side Stones

When selecting side stones, consider the following factors:

- **Color:** Ensure the side stones complement the center stone in color and clarity.
- **Size:** The side stones should be proportionate to the center stone to maintain balance.
- **Shape:** Round, princess, and baguette cuts are popular choices for side stones.
